31	Pallid Cuckoo	02/09/2012	62	Yellow-tailed Black-cockatoo	09/03/2006
			63	Yellow Thornbill	04/09/2008

Striated Pardalote and Rufous Fantail – two of the birds seen at the reserve.
 (The sighting of Rufous Fantails on the reserve is unexpected since the species is rarely seen in this region. It usually prefers wet forests from southern Victoria to northern Queensland).
